The phrase sufficient funds means the applicant must establish the unlikelihood of either becoming a public charge, or of resorting to unauthorized U.S. employment for financial support. An applicant must provide documentary evidence that sufficient funds are, or will be, available to defray all expenses during the entire period of anticipated study. This does not mean that the applicant must have cash immediately available to cover the entire period of intended study, which may last several years. The consular officer must, however, require credible documentary evidence that the applicant has enough readily available funds to meet all expenses for the first year of study. The officer also must be satisfied that, barring unforeseen circumstances, adequate funds will be available for each subsequent year of study from the same source or from one or more other specifically identified and reliable financial sources.

## 15- F1 Visa Interview Tips

1. Wish them with a smile once your turn comes
2. Remember 1st impression is the best impression.
3. Always answer to the point
4. Be very polite and respectful to the VO
5. Even when you stand in the queue they do observe your body language, be confident, calm and cool.
6. Be loud enough while speaking, this shows you are confident.
7. Listen properly what the VO says before answering him/her
8. People always have a tendency to get negative thoughts about your honesty if you are nervous. Atleast don't show the nervousness in your voice and face when you stand in front of the VO. And VOs are specially trained with human psychological behaviors, they can make out very quickly.
9. Neatly arrange all your documents
10. Though you feel nervous, look & sound confident in your voice and body language.

11. You should have the proof for each and everything you present the VO.
12. For example: Having 6 yrs of experience I had got a waiver for both GRE & TOEFL, hence I have not written those exams. When the VO asked me why is this waiver specially for you? I presented her the email print out I had taken for the waiver which I received from the University grad admission dept & the Director of the MS SE dept of SanJose State University and explained that same.
13. It's good if you have written proof of communication with your university professors regarding the courses, university facilities etc so that you can present the VO with better proofs.
14. Ultimately it is how you present yourself in just few minutes matters whether you get your visa or not. Luck apart, but you can try your level best.
15. I think you should not lose your heart, but try again with better preparation and document proofs. Remember each visa interview will be a fresh one, they might not ask you the same questions, hence be prepared the worst.

Good Luck!
